SUMMARY

Mobile Developer with 5+ years of experience building high-performance mobile applications for Android and iOS. Expertise in UI and UX engineering, researching latest technology trends, native module integration, and end-to-end delivery from development through Play Store and App Store publishing.

EXPERIENCE

Senior Analyst Software Engineer

Sunbonn

June 2025 - Present, Coppell, TX

- Developing React Native mobile applications for government and enterprise clients. Integrating REST APIs with complex backend systems; implementing offline-first architectures. Debugging, refactoring, and maintaining code quality across multiple concurrent projects. Managing full app lifecycle: build, testing, publishing, and post-release maintenance.
- Engineered modular component libraries to accelerate development timelines and standardize UI and UX across multiple high-profile client applications.

Senior React Native Developer

Xtecsoft Pvt Ltd

April 2024 - July 2025, Karachi, Pakistan

- Architected and delivered scalable mobile solutions across diverse client projects. Managed dependency upgrades module refactoring, and performance optimization. Handled App Store and Play Store publishing workflows end-to-end.
- Mentoring junior developers and conducting code reviews to maintain engineering standards and smooth UI design.

Mobile Application Developer

Symits/Indolj

January 2023 - January 2024, Karachi, Pakistan

- Designed and built UI for a B2B restaurant ordering platform (iOS & Android). Customized and deployed white-labeled app variants for multiple clients. Handled API integration, code refactoring, debugging, and app publishing.
- Collaborated with computer engineers to customize and deploy white-labeled app variants for multiple clients.

React Native Developer

DigiTrends Pvt Ltd

August 2021 - December 2022, Wilmington, Delaware

- Built and maintained UI components and API integrations across mobile applications. Performed regular app.
- Performed regular app updates and UI tests to source analytics and improve user engagement.

PROJECT

SBTA - Sindh Blood Transfusion Authority (2 Apps)

Sunbonn • play.google.com/store/apps/developer?id=Sindh+Blood+Transfusion+Authorities

- Government-commissioned suite: SBTA Donor (public blood donation platform) and SBTA Monitor (field inspector tool for scheduling, inspections, and offline reporting). Built both apps end-to-end covering donor registration, scheduling, and inspection workflows. Implemented offline-first architecture for full functionality in zero-connectivity environments. Integrated secure REST APIs with government backend systems for real-time data sync. Managed complete Play Store publishing and post-launch maintenance.

ioMoVo - AI-Powered Digital Asset Management

Xtecsoft Pvt Ltd • play.google.com/store/apps/details?id=io.iomovo.app

- Enterprise DAM platform for managing, organizing, and collaborating on digital media assets at scale. Designed Cloud Photo Sync with a native module for post-sync deletion; tracked history via SQLite. Built a streamed chatbot via JS injection into a WebView for chunked response handling. Developed a Canvas-based annotation tool for images/videos using Skia and Reanimated. Added HLS streaming with preview thumbnails; integrated Stripe and In-app purchases.

Indolj Whitelabeled - B2B Restaurant App

Symits/Indolj • play.google.com/store/apps/developer?id=Indolj

- Multi-tenant restaurant ordering platform with multiple white-labeled client deployments. Redesigned landing page, dramatically improving performance on large datasets. Prepared and published white-labeled versions for multiple restaurant clients. Built an Indolj Signage TV application with fully custom playback controls.

Raftaar - BURQUE Retail Ordering App

DigiTrends Pvt Ltd • play.google.com/store/apps/details?id=com.raftaarmobile

- B2B app enabling retailers to order inventory with 24-hour delivery. Built from scratch: architecture, UI/UX, cart, real-time push notifications, and delivery tracking.

Raply - Rap Music Platform

DigiTrends Pvt Ltd

- Music app for rappers to create, upload, and share rap videos. Replaced FlatList with RecyclerView; implemented Singleton Pattern; reworked beat selection; added IAP.

EDUCATION

Bachelor of Science in Computer Science

Iqra University, Karachi • Karachi • 2017 - 2021

SKILLS

JavaScript, TypeScript, React Native, Native Modules, Expo Firebase, REST APIs, Express JS, SQLite, HTML/CSS, Kotlin, Android, iOS, UI, UX, Analytics

OPEN SOURCE CONTRIBUTION

Media Deletion Module Overhaul

React Native Camera Roll

- Replaced Content Resolver with MediaStore API, improving Android 10+ compatibility.

Crash Fix

React Native Video

- Fixed a crash on iOS where the library was crashing while reading files with invalid metadata.
-
